

Indian Neuro-Ophthalmology Society Annual Conference Chennai 2024

Scientific Program

Day 1: 21st September 2024

8:00 -8.30 am- Registration

Welcome address Dr ShikhaBassi

Hall -1

Session 1: 8:30- 10:00 Hrs.-Nerve Nuances

Panel: Andrew Lee, Mahesh Kumar, Rohit Saxena, Ambika Selvakumar

S. No.	Title of the talk	Speaker (10 min each)
1.	Approach to Disc edema	Padmavathy Maharajan
2.	From Prescription to Poisoning: Insights into Linezolid Toxicity and Prevention	Syntia Nusanti
3.	Cupping of disc –Is it Glaucoma or Neuro ophthalmic disease ?	Ronnie George
4.	Ethambutol toxicity: Outcomes and Prognosis	Rohit Saxena
5.	Swollen disc in diabetic patient: not your typical culprit!	Alia Arianti
6.	An approach to Optic Atrophy: Interesting cases	Vivekanand Warkad
7.	My vision fades out: Visual disturbance from migraine	Sachin Kedar
8	Surgical management of IIH, approaches and meta-analysis of visual restoration following surgical treatment	Krishna Vaitheeswaran
	Discussion	10 minutes

Session 2:10.00 -11:00 Hrs.- Optic Neuritis

Panel: Clement Tan, Navin Jayakumar, Prem Subramanian, Venkatraman

S. No.	Title of the talk	Speaker (10 min each)
---------------	--------------------------	------------------------------

1.	How do I diagnose Optic Neuritis	Padmaja Sudhakar
2.	Facts about optic neuritis that I thought were true but now are false	Andrew Lee
3.	Challenges in Imaging of Optic Neuritis	Aseem Sharma
4.	Challenging case - Is this optic neuritis?	Durga Priyadarshini
	Discussion	10 minutes

11: 00- 11:15Hrs- Tea Break

Session 3: 11: 15Hrs -12:30Hrs – Paediatric Neuro-Ophthalmology

Panel: Andrew Lee, Krishna Vaitheeswaran, Rashmin Gandhi, V. Viswanathan

S. No	Title of the talk	Speaker (10 min each)
1	My baby can't see	Dan Milea
2	Paediatric optic neuritis	Satoshi Kashi
3	Inherited optic nerve disorders	Manjushree Bhate
4	Solving the ocular motility puzzle in Children: A journey from diagnosis to management	Muralidhar R
5	Paediatric Ocular myasthenia gravis	Soveetha Rath
6	Tamil Savouries 1- Do not fear nystagmus!	Umapathi Thirugnanam
	Discussion	10 minutes

Session 4:12:30-13:30 Hrs. -Orbit Quandaries

Panel: Shikha Bassi , Padmaja Sudhakar, Padmavathy Maharajan, Sachin Kedar

S. No	Title of the talk	Speaker(10 min each)
1	Red Flags Behind the Red Eye: Understanding Acute Proptosis	Syntia Nusanti
2	Dysthyroid optic neuropathy	Prem Subramanian
3	Tissue diagnosis is always necessary for orbital apex syndrome.	Clement Tan
4	Short lasting orbito periorbital headaches	M V Francis

5	Acute Diplopia: Should I worry about Giant Cell Arteritis?	Sangeeta Khanna
6	Apraxia of Eyelid Opening	E Ravindra Mohan
	Discussion	10 minutes

13:30-14:00Hrs- Lunch

Session 5: 14:00-15:30 Hrs- Systemic Diseases in Neuro Ophthalmology

PANEL: Satoshi Kashi, Digvijay Singh, Satya Karna, Tamil Paavai

S. No	Title of the talk	Speaker(10 min each)
1	Neuro-ophthalmology of Syphilis	Sachin Kedar
2	Neuro ophthalmic manifestations of Tuberculosis	Padmaja Sudhakar
3	Endocrine disorders and Neuro ophthalmology	A. Kowsalya
4	Neuro-ophthalmic Complications in Pregnancy	Anita Ambasta
5	Neuro Ophthalmology manifestations Of Varicella Zoster	Sangeeta Khanna
6	PRESS	Swati Phuljhele
7	Infranuclear Lesion	Kumudini Sharma
8	Challenging case- One Disease- Dual Pathogenesis	Vidhya Dharani
	Discussion	10 minutes

Session 6: 15:30- 16:30 Hrs.–Myopia

Panel: T. Surendran, Rohit Saxena, Ankur Sinha, Vinay Gupta, Dharam Raj

S. No.	Title of the talk	Speaker (10 min each)
1	Magnitude of Problem and assessment of progression in Myopia	Rebika Dhiman
2	Pharmacological treatment of Myopia	Digvijay Singh
3	Optical treatment of Myopia	Vivekanand Warkad
4	Innovations in Myopia Control and its Management	Vijaya Vasanthakumar

Session 7: 16:30 - 18:30 Hrs– Inauguration (30 min) -MC- Dr Vidhyadharani

INOS Oration (90min)

**Panel: Navin Jayakumar, Ambika Selvakumar, Rohit Saxena,
Swati Phuljhele, Digvijay Singh, Rashmin Gandhi**

Lifetime Achievement award:

Prof Vimala Menon

S. No	Title of the talk	Speaker	Time
1.	Space flight neuro ophthalmic syndrome (SANS)	Andrew Lee	INOS Oration (15 minutes)
2.	Advances in neuro-imaging for neuro-ophthalmology	Prem Subramanian	Keynote (12 minutes)
3.	Ophthalmoscopic differentials on optic nerve disorders.	Satoshi Kashi	Keynote (12 minutes)
4.	Tamil Savouries 2-Audience Choice!	Umapathi Thirugnanam	Keynote (12 minutes)

INOS -GBM (18:30 –19:00Hrs) – 2ND FLOOR - BOARD ROOM

DINNER -19:00 Hrs Onwards –8TH FLOOR SKY LOUNGE

Day 1: 21st September 2024

Hall- 2

Session 1: 8:30-10:00 Hrs- Case Presentation I (5+2)

Judges- Ankur Sinha, Navin Jayakumar, Satya Karna

Abstract ID	Abstract Title	Presenter Name
CP1	Diagnostic Dilemma- A Perfect Masquerade Of CNS And Ocular Disease Entity	Basavaraj Tigari

CP2	Overlap of Miller fisher syndrome and myasthenia gravis-a case report	Nayana G
CP3	Bilateral non-arteritic anterior ischemic optic neuropathy following abortion: A case report	Jayasri P
CP4	Paediatric Papilloedema Mystery: Pheochromocytoma Alert !	Niral Hinsu
CP5	Rare yet Ravaging- a case of temporal bone Aneurysmal Bone Cyst	Pragya Bhattacharjee
CP6	Asymmetry papilledema in idiopathic intracranial hypertension: A rare entity	A. Balraj
CP7	An unusual association of congenital myasthenic syndrome with arachnoid cyst	Shrutakirty Parida
CP8	We report a case of GFAP antibody positive bilateral optic neuropathy with severe visual manifestation.	Richa Sharma
CP9	A suspected case of progressive supra nuclear palsy	Mehakleen Kaur Gill
CP10	Papilledema due to coexisting Malignant hypertension and Idiopathic intracranial hypertension – double trouble in a single patient	Abhipsa Sharma
CP11	Nephrotic syndrome and disc edema : connecting the dots	Soveetha Rath
CP12	Complex Strabismus following COVID vaccination	Rishikesh Mayee

Session 2: 10:00-11:00 Hrs- Poster Podium - I (6+2)

Judges- Hemalini Samant, Nirmala Devi, Padmalakshmi

Abstract ID	Abstract Title	Presenter Name
PP1	Linezolid – Induced toxic optic neuropathy – A case series	Aarti Rajkumar
PP2	Clinical profiles of Traumatic Orbital apex Syndrome and treatment outcomes - case series	Bhavani Pasupula
PP3	Seeing Birds, Seeing Double, Seeing Weird - Ophthalmic Presentations of Cerebrovascular Accidents	Amirtha Varshini Venkata Subramanian

PP4	“Eyes are the Window to Brain”: Rescue story of life-threatening conditions with Unusual Neuro-ophthalmic presentations!	Anupama Janardhanan
PP5	Biopsy Proven temporal Arteritis- A Case Series Of 6 Patients	Basavaraj Tigari
PP6	A Case Series on Paediatric Optic Neuritis	Nivetha S
PP7	Orbital Apex Syndrome secondary to latent tuberculosis infection	Snehal Ganatra

11:00 -11:15 Hrs- Tea Break

Session 3: 11:15-12:00 Hrs- Botox Workshop

Dr. Padmalakshmi, Dr. Sonam Nisar, Dr. Sangeetha Khanna

Session 4: 12:00-13:00 Hrs.- Basics

Panel: A Balraj, Saravanan, Trupti Kadam, Taru Dewan, Vinita Gupta

S. No	Title of the talk	Speaker (10 min each)
1.	How not to miss an Optic Neuropathy	Thomas Arun Varghese
2.	Differentiating Neurological and Glaucomatous Visual Field loss	Karthikeyan Mahalingam
3.	The basics of Neuroimaging imagining for ophthalmologists	Vikas Kanaujia
4.	The pupil: window to the brain	Rolli Khurana
5.	Internuclear & Supranuclear Disorders of Ocular Motility.	Neena R

Session 5: 14:00- 15:30 Hrs- Free Paper (7+2)

Judges : Mahesh Kumar, R Muralidhar, Nirmala Devy

Abstract ID	Abstract Title	Presenter Name
FP1	Diagnostic and Management approach of Idiopathic intracranial hypertension in pediatric and adolescent age group: Our experience in a tertiary eye care hospital in Bangladesh	Tanima Roy
FP2	Validating the utility of Kestenbaum number in various types of optic atrophy	Madhurima A Nayak
FP3	Clinical profile and perioperative risk factors for post cataract surgery non-arteritic anterior ischemic optic neuropathy in an Indian population	Madhumita Gopal
FP4	Effectiveness of Vision Centres in Screening for Neuro-Ophthalmic Disorders	A. Balraj
FP5	Post fever optic nerve disorders-a prospective interventional study	Shrutakirty Parida
FP6	Clinical Profile, Etiology and Treatment Response of Neuroretinitis: Analysis of 75 Eyes from a Tertiary Care Eye Centre in South India	Rakshita Deepak Kene
FP7	Clinical profile and associations of optic nerve head drusens in North Indian population presenting at a tertiary care center	Basavaraj Tigari
FP8	Clinical Profile of Optic Nerve Diseases in HIV Patients presenting to Tertiary Eye Care center in South India	Abhipsa Sharma
FP9	Role of Spectral Domain- Optical Coherence Tomography (SD-OCT) in predicting structural changes of Retina and Choroid in Parkinson's disease	Diksha Rathi
FP10	Atypical IIH (IIH without papilledema) That you cannot miss	Gemini Issac

**Day 2: 22nd September 2024
Hall 1**

Session 1: 8:30- 09:30 Hrs- Challenging Cases

Panel: Ashwini Behra, Jenil Sheth, Revati Ramesh, Virna Shah

S. No	Title of the talk	Speaker (10 min each)
1.	Tales of great mimickers not to miss	Y V Raman
2.	GFAP antibody associated optic neuritis	Gazella Bruce Warjri
3.	MOG Optic Neuritis	Mayur R. Moreker
4.	Nightmare after a nose job	Anuradha Chandra
5.	An interesting case of Adie's pupil	Madhavi Bijlani
6.	A rare case of Myelin Oligodendrocyte Glycoprotein Associated Disease (MOGAD) with 6th nerve involvement	Karthikeyan Mahalingam

09:30 - 09:45Hrs - Tea Break

Session 2: 09:45- 12:00 Hrs– Optic Neuropathies

Panel: Lingam Gopal, Sangeeta Khanna, Satoshi Kashi, Swati Phuljhele

S. No	Title of the talk	Speaker (10 min each)
1.	Transient visual loss – neuro ophthalmic perspective	Aastha Kapila Takkar
2.	Challenging situations in managing IHH	Virender Sachdeva
3.	Can we define NTG better?	Clement Tan
4.	Optic disc oedema with a macular star	Vijay Tomar
5.	Drugs and LHON: Unlocking the connection	Jenil Sheth
6.	NA-AION in Young: Scenario in Tertiary Eye Care Hospital; Bangladesh	Shayamal Kumar Sarkar
7.	Optic nerve head drusen or true Disc edema: A diagnostic dilemma and Role of ocular imaging	Shweta Chaurasia
8.	Exploring the Cause of Visual Loss: The Role of Multimodal Diagnostic Tests in Neuro-OphthalmologyClinic	Alia Arianti
9.	Drug Induced Optic Neuropathy	Meenakshi Dhar
10.	Primary Optic Atrophy A Diagnostic Dilemma	Tanima Roy

11.	Red Flags in Neuro-Ophthalmology	Satya Karna
	Discussion	10 minutes

Session 3: 12:00-13:00 Hrs – Where the Eye Meets the Brain**Panel– Clement Tan, Navin Jayakumar, Shikha Rajesh Bassi, Virender Sachdeva**

S. No.	Title of the talk	Speaker (10 min each)
1.	Brain mechanisms behind vision – Why log MAR? Why I, j, k?	Satoshi Kashi
2.	Tamil Savouries 3 Visual Cortical dysfunction	Umapathi Thirugnanam
3.	Vision related quality of life in patients with Atypical Optic Neuritis	Taru Dewan
4.	Dangerous Vessels of the Head	Hemalini Samant
	Discussion	10 minutes

13:00- 13:30 Hrs – Lunch**Session 4: 13:30-14:30 Hrs- Put on your boxing gloves****PANEL – Andrew Lee, Prem Subramanian, Satoshi Kashi**

S. No	Title of the talk	Speaker	Time
1	1a. Do we need to investigate optic neuritis YES 1b. Do we need to investigate optic neuritis NO Discussion –	Shikha Bassi (7min) Mahesh Kumar(7min) Satoshi Kashi (6min)	20 min
2	2a. MRI for all cranial nerve palsies- YES 2b. MRI for all cranial nerve palsies- NO – Discussion-	Rashmin Gandhi (7mn) Navin Jayakumar (7min) Prem Subramanian(6min)	20 min
3	3a. Refractory IIH -my choice ONSF- 3b. Refractory IIH – my choice – SHUNT- Discussion-	S Ambika (7min) Sujatha Guha (7min) Andrew Lee (6min)	20 min

Session 5: 14:30- 15:30 Hrs.- Challenging Cases - International Faculty**Panel: Alia Arianti, Clement Tan, Prem Subramanian, Umapathi Thirugnanam**

1	Challenging case – Tiny bubbles	Dr Andrew Lee
2	Challenging case- Travelling down the wrong track	Dr Prem Subramanian
3	Challenging case Tamil savouries 4 Mystery Dish	Dr Umapathi Thirugnanam
4	Challenging case- “It’s hiding in there somewhere”	Dr Clement Tan

SESSION 6: 15:30-16:30 Hrs– Imaging and intervention

PANEL – Aastha Kapila, Aseem Sharma, Suresh Bapu

S. No	Title of the talk	Speaker (10 min each)
1.	Vessel Wall Imaging of Superficial Temporal Artery: A Neuroradiologist’s Perspective	Aseem Sharma
2.	Imaging choices –Challenging cases	Veena Noronha
3.	Visual outcomes of sellar masses- A neuro surgeons’ perspective	Vishwaraj Ratha
4.	Challenging case- Fulminant IIH	Kayal Vizhi
5.	Venous sinus thrombosis – Neuro ophthalmology perspectives	Rithesh Nair

Vote of thanks –Dr Durga Priyadarshini

**Day 2: 22nd September 2024
Hall- 2**

Session 1: 08:30-9:30Hrs -Case presentation II (5+2)

Judges- Kumudini Sharma, Shweta Chourasia, Taru Dewan

Abstract ID	Abstract Title	Presenter Name
CP13	Orbital Apex Syndrome secondary to Tuberculosis: a case report	Monika Singh
CP14	A case of Idiopathic Intracranial Hypertension presenting with unioocular disc edema	Greeshma Merin Sebastian
CP15	What does not meet the eye	M Ram Prakash

CP16	Stuck in the Dark! A Diagnostic Dilemma to No Perception of Light.	Amirtha Varshini Venkata Subramanian
CP17	Rare and interesting case of Steele Richardson Olszewski syndrome	Sowmiya Bhagyam K
CP18	Were we blind to her blind eyes?	Aastha Bansal
CP19	Bridging the Gap- pseudo to true papilloedema- a rare case of Polycythemia Vera	Gemini Issac
CP20	The Wandering Eye and the Droopy Lid: Looking Beyond Nerve Damage	Nidhi Agarwal

9:30 - 09:45 Hrs - Tea Break

Session 2: 9:45-10:45 Hrs- Poster Podium II (6+2)

Judges- Mayur R Moreker, Mahesh kumar , Vikas Kannaujia

Abstract ID	Abstract Title	Presenter Name
PP8	Unraveling the Causes of Optic Atrophy: A Comprehensive Review of Etiologies and Implications	Arpita Sthapak
PP9	“Clotting chaos”: The Cerebral venous sinus thrombosis conundrum!	Uma Maheshwari.R
PP10	Optic nerve involvement in uveitis- clinical profile, aetiology, management and visual outcome of nineteen cases	Sushrut Suhas Dongargaonkar
PP11	Red Flag signs in papilledema that aid to diagnose Non-IIIH (Idiopathic Intracranial Hypertension) patients	R Preethigha
PP12	Aetiology of acute vision loss in patients presenting to the Neuro-ophthalmology Department at a Tertiary Eye Care Center	Aparajitha Bondili
PP13	Disc Edema: The Usual Suspects and the great mimickers	Harsh Vardhan Singh
PP14	Relationship between novel Bruch’s Membrane Opening- Minimum rim width (BMO-MRW) and Retinal Nerve Fibre Layer (RNFL) in Papilledema	Amisha Gupta

Session 3: 10:45- 11:45 Hrs- Case presentation III (5+2)

Judges- Digvijay Singh, Gazella Bruce Warjri, Gunjan Saluja

Abstract ID	Abstract Title	Presenter Name
CP21	Motherhood is the greatest as well the hardest thing	Sakshi Lalwani

CP22	Sellar plasmacytoma - A rare case report	A. Balraj
CP23	Navigating the Challenges of Persistent Disc Edema	Mehakleen Kaur Gill
CP24	Idiopathic Intracranial Hypertension as a presenting manifestation of Mixed Connective Tissue Disease in a Female	R Preethigha
CP25	Hemifield loss in a young female associated with Hyperhomocysteinemia	Sidrah Imran
CP26	Optic neuritis, it might not be what it seems to be	Tushar Sharma
CP27	Late onset MOGAD – Optic Neuritis	Abirami Mani
CP28	A malady of two buoyant girls: case reports of SSPE	Kirthika Kannan

Session 4: 11:45-13:00 Hrs.- Understanding Disease

Panel: Amrita Kapoor, Neha Midha, Nirmala Devy, Rajeswari T

S. No	Title of the talk	Speaker (10 min each)
1.	Anterior ischemic optic neuropathy	Raman Mehta
2.	Idiopathic Intracranial hypertension	Revati Ramesh
3.	Optic Neuritis	Munish Dhawan
4.	Approach to patient with unexplained visual loss.	Nripen Gaur
5.	Role of OCT in Neuro-ophthalmology	Asmita Mahajan
6.	Traumatic Optic neuropathy	Gunjan Saluja
7.	Headache cases in eye OPD- approach to management	Anirudh Singh

Lunch- 13:00-13:30 Hrs

Physical Poster

Judge: Anuradha Chandra/ Munish Dhawan / Neha Midha/ Rebika Dhiman / Soveetha Rath

Abstract ID	Abstract Title	Presenter Name
P1	Stroke - A threat to vision loss: A Case Report	Aneeka Rahnuma Islam
P2	Optic Disc Edema: A Key Indicator in the Diagnosis of Optic Nerve Meningioma	Arushi Arora
P3	A case of bilateral disc edema- diagnostic dilemma	Divya.M
P4	Tuberculous ocular disease producing disc edema and challenges: case series	Indla Jhansi Rani
P5	Ocular Complications of Hydroxychloroquine: Unrelenting Retinopathy	Jai Dixit
P6	An indolent tumour of the visual pathway: a clinical perspective	Kavya Annamalai
P7	A case of cortical blindness	Nivetha. A
P8	Syndromic case of Chronic progressive external ophthalmoplegia	Nivetha. A
P9	Rare presentation of partial third nerve palsy	Priyadharshini PV
P10	Bilateral Optic Disc Pallor: Unveiling the diagnosis Craniopharyngioma.	Shreya Patel
P11	Post fever optic nerve disorders-a prospective interventional study	Shrutalirty Parida
P12	Evaluation of stereoacuity levels in children and adolescent amblyopic population from North India.	Vineeta Gupta
P13	An Unusual case of Pituitary macroadenoma presenting with unilateral disc edema.	S. Sangeetha
P14	Atypical tuberculous meningitis: a case of isolated ocular manifestations	Sai Priya Neelapala
P15	Case series of systemic diseases with visual symptoms	Anjali Sagar
P16	To analyze sequelae after Bell's palsy	D Gitanjali Fernandez
P17	WEBINO Exposed: A Classic Case of Brainstem Infarct with Distinctive Ocular Manifestations	Naveena.M
P18	Visual outcomes in children with Global Development Delay	Pawan Kumar
P19	Gross optic disc edema, where, to observe was the only option	Shamika Patoria
P20	Virtual Reality Sheds Light on Adie's Pupil Mystery	Snehal Ganatra
P21	What a pair- Hickam's dictum!	Venuhasini GR
P22	Rare and interesting case of Steele Richardson Olszewski syndrome	Sowmiya Bhagyam K

P23	Bridging the Gap- pseudo to true papilloedema- a rare case of Polycythemia Vera	Gemini Issac
P24	Unraveling the mystery: From trauma to tumor	Nandhini R
P25	Pontine tuberculoma induced sixth nerve palsy- A true localizing sign!	Akshata Charlotte
P26	Non-arteritic anterior ischemic optic neuropathy after optical penetrating keratoplasty	Mukund Garg
P27	Unilateral 6th and 7th Nerve Palsy Following Acoustic Neuroma Resection via Retro sigmoid Approach: A Case Report	Trupti Kadam Lambat
P28	An interesting case of MOG optic neuritis with unusual features	Anusmita Mitra
P29	Unravelling the unusual: Colloid cyst manifesting as third nerve palsy	Naveena.M
P30	"Saving Sight in TED: A case report of Dysthyroid Optic Neuropathy"	Trupti Kadam Lambat
P31	The Unexpected Dual Onset of Bilateral Vision Loss and Delirium	Sita Paramita Ayuningtyas
P32	Bariatric surgery gives a whole new life but life brings in new challenges	Sakshi Lalwani
P33	Optic Pathway Gliomas: Going Under the Knife	Priyanka Saini
P34	Unilateral IHH- a real jeopardy I if not this, then what?	Gemini Issac
P35	"Eye beating to the mass"	Etike Anusha
